### CUSTOMERS

### FOCUS ON NEW PRODUCTS

As our online store expands, we're excited to introduce our latest **ionic liquids (ILs)**! These remarkable compounds are now available for purchase. Here's why you'll want to explore them:

**High Energy Density:** Whether you're powering electric vehicles or portable gadgets, ILs enhance battery performance, making them ideal for energy storage applications.

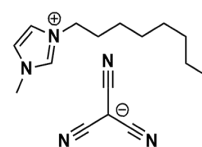

ILs are versatile non flammable **solvents** with customizable properties, making them ideal for various applications including **catalysis**, and as performance-enhancing additives in **solar cells** and **batteries**.

[1-Methyl-3-octylimidazolium tricyanomethanide, 98%](#)

Product Code: IL-0332-HP

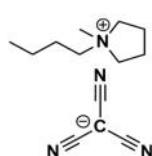

Applications: Air Purification, CO<sub>2</sub> Separation, Battery electrolyte

[1-Butyl-1-methylpyrrolidinium tricyanomethanide, 98%](#)

Product Code: IL-0318-HP

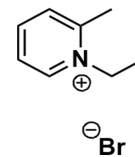

Applications: Battery electrolyte

[1-Ethyl-2-methylpyridinium bromide, >99%](#)

Product Code: IL-0225-HP

Applications: Zinc-Bromine Batteries
